

MA6700 integrated amplifier

- MA6700 combines a high performance McIntosh amplifier, preamplifier, DAC and Phono section in one space saving model.
- The 200 watts per channel amplifier has enough power to properly drive virtually all loudspeaker types. Utilizing the world famous McIntosh load matching Autoformer guarantees your speakers will always receive the full 200 watts of power.
- Includes bass and treble controls, Home Theater Pass Through for easy integration into your theater and a high drive headphone amplifier for the best personal listening experience.
- Two dedicated phono sections will bring new life to your record collection and will deliver the best possible sound from your turntable.
- The McIntosh Digital Engine will decode your digital music at up to 32 bits and 192kHz for classic analog fidelity.

For the Consumer's Protection:

In order to ensure the highest level of customer satisfaction, "new" McIntosh products may only be purchased over-the-counter or delivered and installed by an Authorized McIntosh Dealer. McIntosh products that are purchased over the Internet, by phone or mail order are presumed to be "used" and do not qualify for any McIntosh Warranty. McIntosh does not warrant, in any way, products that are purchased from anyone who is not an Authorized Dealer or products that have had their serial number altered or defaced.

Not available in the US and Canada.
Please see the MAC6700 Receiver.
