

MA7900 integrated amplifier

- All of the popular McIntosh features that music lovers demand are combined in MA7900. Audio dreams become reality when you play your audio sources through MA7900.
- The 200 watts per channel amplifier has enough power to properly drive virtually all loudspeaker types. The world famous McIntosh Autoformer will make sure your speakers always receive the full 200 watts.
- Discrete, five band tone control permits manual analog adjustment of your favorite recordings and may be assigned by input or bypassed as desired.
- Two dedicated phono sections will bring new life to your record collection while producing the best possible sound from your turntable and phono cartridge.
- The McIntosh Digital Engine will decode your digital music at up to 32 bits and 192kHz for maximum analog fidelity and enjoyment.

The Technology and Features Music Lovers Demand
